

FRANSHAM PARISH COUNCIL

DONATION & GRANT POLICY

APPROVED: 15th March 2022

Review Schedule: Three years

1. SCOPE AND PURPOSE

It is the policy of this council to support local community groups and charities through the annual award of grants and donations.

2. PRINCIPALS

Given the small size of the parish, the amounts that can be donated are of necessity limited therefore priority will be given to those organisations/groups where the funds will directly benefit the parish and surrounding area.

3. PROCEDURE/IMPLEMENTATION

The parish benefits from two historic churches, the war memorial being in the grounds of one. The council recognises the importance of these to the local community and will fund the regular cutting of the grass areas in both church yards as its first priority. Other requests will be considered against the donations budget towards the end of the financial year and appropriate amounts awarded. These will be within the current limits of \$137, unless the General Power of Competence is appropriate. All awards will be reported through the minutes published on the council website.
